

## About the **energate messenger english edition**

The **energate messenger english edition** provides the most essential news and background information on the German energy markets in a daily e-mail newsletter and on the website. In addition, the reader has access to an archive with more than 28.000 articles on energy-related news.

The topics range from market & companies, politics, electricity, gas & heat to trends in technology and mobility.

*"ener|gate messenger brings insightful perspectives on the German energy sector. Working for a multinational company, it is of great help for me to have an English version at a time when understanding the different European energy markets is more important than ever."*

**Catherine Gras**  
CEO Storengy UK & Germany

## About **us**

The **energate messenger english edition** is published by **energate**, the leading specialist media company in the DACH energy-market area. The editorial team consists of around 20 energy journalists who cover the sector in Germany, Belgium, Switzerland and Austria.
